Find out what's going on in Hiroshima

3 things to look out for in the now fully reopened Peace Memorial Museum

Mark McPhillips (Coordinator for International Relations) – June 2019

On 25th April, the Main Building of the Peace Memorial Museum reopened after 5 years of renewal work. Although continuing earthquake-proofing work may make it seem from the outside like nothing has changed, the whole museum is now fully open to visitors. In this month's column I'd like to introduce three aspects of the new-and-improved museum and my feelings after visiting.

1. Remnants of the destruction

The aim of the section "Devastation on August 6th" is to make visitors feel as if they are stood in the ruins of Hiroshima just after the bombing. The focal point is a large central case (pictured), the base of which is scattered with work clothes worn by schoolchildren killed in the bombing. I had the sense that the case is intentionally oversized, with a striking space left between the clothes as if they still lay undisturbed.

Many of the displays surrounding the central case contain objects damaged by the bomb. These include everyday items that we normally think of as sturdy and brittle, such as coins, bottles and iron girders, which were distorted by the blast and fused together by the heat. These bizarre sights conveyed to me the horrifying force and painful tragedy of an atomic bomb.

2. Human stories

写真：広島平和記念資料館所蔵

"Cries of the Soul" and "To Live" are two sections of the Main Building that deal with victims and survivors respectively. "Cries of the Soul" displays belongings left behind by victims together with photographs and the words of their family members. When I visited, I felt that it was important for all three of these to be displayed together. Each heartbreaking story was made more real by seeing the face of the victim, and even more so by having an actual object from that person's life in front of me.

On the other hand, the focus of "To Live" is the stories of survivors who had to live on with the physical and emotional consequences of their experiences, such as being forced into poverty by the inability to work. It occurred to me that those of us from outside Japan still do not know enough about this part of Hiroshima's history.

3. Temporary exhibition: drawings of the bombing

Expected to run until the end of December, this temporary exhibition can be found in the Special Exhibition Room on the East Building's first floor, and features pictures created by survivors of the atomic bombing to visually tell their stories. There are 75 pictures on display, but there are actually over 5000 such pictures in existence, created by over 1000 people. Because of this, the exhibition also features ultra-high definition (UHD) screens showing a 10 minute version of the NHK documentary *Stories Told Through A-Bomb Drawings by Survivors: Hiroshima* (with English subtitles).

Next year will mark 75 years since the atomic bombing, and Hiroshima is still thinking of new ways to commemorate the bombing and educate visitors on the realities of what happened on 6th August 1945.

Assisting with International Cooperation with Used Stamps & PET Bottle Caps

The International Exchange Lounge collects used stamps to assist international cooperation activities. Through the volunteer groups, JOCS*, the collected stamps are sold to collectors to raise money. With the profit, items such as milk and medicine are purchased and doctors as well as nurses are dispatched throughout Asia and other continents. We also collect PET bottle caps in order to support the "Ecocap Action". The sales profits obtained by recycling caps are donated to the Japan Committee "Vaccines for the World's Children" (JCV).

*JOCS: Japan Overseas Christian Medical Cooperative Service

HOW TO COLLECT:

- © **Stamps** ☹️ When you cut stamps from envelopes, please leave 5 mm of paper around them. It is not necessary to remove them from the envelope. Torn or folded stamps cannot be accepted.
- © **PET Bottle Caps** ☹️ Only PET bottle caps for drinks or mineral water are accepted. Please wash the caps and tear off the sticker if it has one. This is in order to avoid damaging the recycling machines. Things such as metal caps and pull-top tabs cannot be accepted.

Garbage Disposal Information

Separate garbage properly and take it to the collection site by 8:30 am on the designated day. Please do NOT take garbage to the site on the night before. Garbage collection days vary depending on where you live and the category of the refuse. For further details, consult your local ward office or your neighbors to be sure of the proper disposal method. "Hiroshima 8", a handbook on how to separate garbage, and "Hiroshima City Garbage Disposal Guidelines", a garbage chart with schedules of garbage collection days, are available at ward offices, branch offices and community halls. The Handbook and Guidelines are translated into English, Spanish, Portuguese, Chinese and Korean. These are also available at the International Exchange Lounge (International Conference Center Hiroshima), so please ask the staff if you need them.
